

MODELING E/o MERCED FALLS TO E/o Bagby

The information on these CDs is intended to help model the area between Merced Falls and North Fork. There are a total of 334 pages of photos that include 314 photos (of which 199 are unpublished). There are photos of nearly all of the buildings within this area of the railroad to help building more accurate models and also train photos which help understand the terrain and scenery along this section of the Yosemite Valley Railroad.

The following summarizes the number of pages, number of photos, and number of unpublished photos in each Adobe Acrobat .pdf file on this two-CD set:

00 USGS Maps (6 Pages)

- 18a Construction (8 Pages, 8 photos (2 unpublished))**
- 18b Bridge 29A Pt 1 (11 Pages, 11 photos (8 unpublished))**
