

# MODELING MERCED FALLS

The information on this CD is intended to help build models of the buildings for Merced Falls. Drawings for the YV station, YV water tank, lumber tram, and Angelos Place were also included on the Drawings CD (although the package for the YV station has been expanded by inclusion of model photos) and are also included on this CD. Drawings only for the Manager's Residence and the Company Store were included in the Reference Resources CD Vol. 1 and are on this CD but with additional information.
